

Yash Gandhi

Mumbai | +91 86920 97033 | yashbtc@proton.me

Summary

Frontend/UI Engineer skilled in React, React Native, TypeScript, Next.js, and Node.js, with experience delivering cross-platform web and mobile apps. Strong focus on UI/UX design, animations, and responsive interfaces. Proven ability to ship production-ready applications with CI/CD, Docker, and AWS deployments. Passionate Bitcoiner and active Bitshala student, learning Mastering Bitcoin and exploring the Lightning SDK.

Skills

Frontend & Mobile: React, React Native, TypeScript, Next.js, Expo, UI/UX, Animations

Backend & APIs: Node.js, Express, REST APIs, MySQL, MongoDB

DevOps & Tools: Git/GitHub, Docker, CI/CD, AWS (deployments), Automation Pipelines

Experience

Evolotek.ai — Lead Frontend Engineer (Full-Stack Capabilities)

Mumbai, India | Jun 2024 – Aug 2025

- Spearheading UI/UX design and development for web and mobile apps using React, Next.js, and React Native.
- Collaborating across the stack with Node.js + APIs while specializing in frontend delivery.
- Established CI/CD pipelines, Dockerized deployments, and automation for faster, reliable releases.
- Designed scalable, intuitive dashboards and client-facing portals improving user engagement.

Barclays — Software Engineer

New Jersey, US | Jun 2023 – May 2024

- Delivered scalable enterprise apps with CI/CD pipelines, automation, and cloud deployments.
- Implemented Dockerized services and automated pipelines to accelerate production releases.
- Contributed to frontend dashboards, improving usability and system reliability.

Projects

bitcoinpolicy.in – Bitcoin-focused web platform

- Built responsive frontend with modern UI/UX design.
- Integrated APIs and deployed using CI/CD workflows.

Sipstr Alcohol Delivery Platform – Customer App, Delivery App, Vendor Dashboard, Admin Portal

- Designed and developed a complete ecosystem of web and mobile apps (React Native + Web).
- Created intuitive UI flows, optimized performance, and deployed apps across iOS and Android.

Community

- Bitshala Student — learning Mastering Bitcoin and exploring the Lightning SDK.
- Active Bitcoiner, building frontend apps for the Bitcoin ecosystem.

Education

Stevens Institute of Technology – MS, Computer Science (2022)

Mumbai University – BE, Information Technology (2018)
